Q.1 .... is generally a set of interrelated components that collects, stores, processes, generates and disseminates information for effective business functioning.

Marks: 2

Question ID: 6289079

No	Options Details	Select Option
1	Data	
2	Information System	
3	Information	
4	IS Model	

Q.2 .... is an integrated user-machine system designed for providing information to support operational control, management control and decision making functions in an organisation."

Marks: 2

Question ID: 6289080

No	Options Details	Select Option
1	Information	
2	Information System	
3	Data	
4	MIS	

Q.3	Which one is not Physical Component of MIS	Marks: 2
		Question ID: 6289081

No	Options Details	Select Option
1	Hardware	
2	Software	
3	Database	
4	Design	

Q.4	Strategic-level functions are ……………	Marks: 2
		Question ID: 6289082

No	Options Details	Select Option
1	mid-level	
2	top-level	
3	lower-level	
4	bottom-level	

| Q.5 | The use of electronic means and technologies for conducting business is called............ | Marks: 2 |
| | | Question ID: 6289083 |

No	Options Details	Select Option
1	online application	
2	e-technology	
3	e-commerce	
4	electronic	

| Q.6 | Data analysis, management of files, processing of queries and report generation are parts of ....… | Marks: 2 |
| | | Question ID: 6289084 |

No	Options Details	Select Option
1	information processing	
2	information generation	
3	input	
4	output	

Q.7   Transistors were used as electronic computer components.

Marks: 2

No	Options Details	Select Option
1	First-generation computers	
2	Second-generation computers	
3	Third-generation computers	
4	Fourth-generation computers	

Q.8   Monitor is a ……….

Marks: 2

No	Options Details	Select Option
1	output device	
2	input device	
3	input /output device	
4	Storage device	

Q.9	.... devices accept the instructions from the user.	Marks: 2

Question ID: 6289087

No	Options Details	Select Option
1	output	
2	input	
3	storage	
4	control	

Q.10	Vacuum tube were used as an electronic component in .... generation.	Marks: 2

Question ID: 6289088

No	Options Details	Select Option
1	first	
2	second	
3	third	
4	fourth	

Q.11 The term ……………….. refers to the physical parts of the computer.

Marks: 2

Question ID: 6289089

No	Options Details	Select Option
1	hardware	
2	software	
3	firmware	
4	program	

Q.12 ……………………… Is an interactive tool used to help people locate information available via the world wide web.

Marks: 2

Question ID: 6289090

No	Options Details	Select Option
1	net surfing	
2	internet	
3	URL	
4	web search engine	

| Q.13 | A computer network where access is restricted only to members of the organisation is known as _____. | Marks: 2 |
| | | Question ID: 6289091 |

No	Options Details	Select Option
1	Internet	
2	Extranet	
3	Intranet	
4	Wide area network	

| Q.14 | Which one of the following is not a type of management support system? | Marks: 2 |
| | | Question ID: 6289092 |

No	Options Details	Select Option
1	Management Information System (MIS)	
2	Decision Support System (DSS)	
3	Executive Information System (EIS)	
4	Functional Information System	

Q.15	.... In which the resources resides in separate units connected be a network and presents to the user a uniform computing environment.	Marks: 2
		Question ID: 6289093

No	Options Details	Select Option
1	clustered system	
2	real time OS	
3	distributed system	
4	desktop system	

Q.16	.... acts as an interface between a user of a computer and the computer hardware.	Marks: 2
		Question ID: 6289094

No	Options Details	Select Option
1	GUI	
2	operating system	
3	hard drive	
4	hardware	

Q.17 ……………….. concept is popular for set of rules.

Marks: 2

Question ID: 6289095

No	Options Details	Select Option
1	url	
2	www	
3	protocol	
4	browser	

Q.18 ……………… is a computer program for storing, processing and delivering Web pages to the end users.

Marks: 2

Question ID: 6289096

No	Options Details	Select Option
1	Web server	
2	Database	
3	URL	
4	GUI	

Q.19 In ………………. network, there is a centralised dedicated computer called file server which controls all functions and applications

Marks: 2

Question ID: 6289097

No	Options Details	Select Option
1	Peer-to-Peer	
2	distributed	
3	client/server	
4	real-time	

Q.20 ………. topology, each device is connected to a single bus cable running through the network.

Marks: 2

Question ID: 6289098

No	Options Details	Select Option
1	Ring	
2	Star	
3	Mesh	
4	Bus	

Q.21 .... is a type of wireless technology that uses radio frequency electromagnetic field to transfer data files.

Marks: 2

Question ID: 6289099

No	Options Details	Select Option
1	RFID	
2	Bluetooth	
3	WAN	
4	TCP/IP	

Q.22 DBMS stands for ....

Marks: 2

Question ID: 6289100

No	Options Details	Select Option
1	database management server	
2	database management software	
3	database manipulation system	
4	database management system	

| Q.23 | Information, inputs for processing may have to be classified or stored. | Marks: 2 |
| | | **Question ID:** 6289101 |

No	Options Details	Select Option
1	data input	
2	data manipulation	
3	data storage	
4	data source	

| Q.24 | .... provides information about or documentation of other data managed within an application or environment. | Marks: 2 |
| | | **Question ID:** 6289102 |

No	Options Details	Select Option
1	data independence	
2	data bin	
3	metadata	
4	instance	

Q.25 .... Is usually graphical presentation of the whole database.

Marks: 2

Question ID: 6289103

No	Options Details	Select Option
1	database instance	
2	data independence	
3	database schema	
4	database users	

Q.26 This service allows users to send and receive electronic messages from all over the world.

Marks: 2

Question ID: 6289104

No	Options Details	Select Option
1	MS-Word	
2	MS-Excel	
3	PowerPoint	
4	E-mail	

Q.27 ……………….. invented a numerical wheel calculator.

Marks: 2

Question ID: 6289105

No	Options Details	Select Option
1	charles babbage	
2	xavier thomas	
3	Blaise Pascal	
4	hollerith	

Q.28 ……………….. Integrates the computer hardware components.

Marks: 2

Question ID: 6289106

No	Options Details	Select Option
1	programming language	
2	application software	
3	utility	
4	system software	

Q.29	.... Is called an Internet Browser	Marks: 2
		Question ID: 6289107

No	Options Details	Select Option
1	ISP	
2	IE	
3	Protocol	
4	OS	

Q.30	Data can be store , retrive and updated in …	Marks: 2
		Question ID: 6289108

No	Options Details	Select Option
1	SMTOP	
2	OLTP	
3	FTP	
4	OLAP	

Q.31 Which of the following is a good alternative to the star schema?

Marks: 2

Question ID: 6289109

No	Options Details	Select Option
1	snow flake schema	
2	star schema	
3	star snow flake schema	
4	fact constellation	

Q.32 Data mining is……….

Marks: 2

Question ID: 6289110

No	Options Details	Select Option
1	time variant non-volatile collection of data	
2	The actual discovery phase of a knowledge	
3	The stage of selecting the right data	
4	The actual discovery phase of a data	

Q.33 —- is not a data mining functionality?

Marks: 2

Question ID: 6289111

No	Options Details	Select Option
1	Clustering and Analysis	
2	Selection and interpretation	
3	Classification and regression	
4	Characterization and Discrimination	

Q.34 Firms that are engaged in sentiment mining are analyzing data collected from?

Marks: 2

Question ID: 6289112

No	Options Details	Select Option
1	social media sites	
2	in-depth interviews	
3	focus groups	
4	experiments	

Q.35   A data warehouse is …………

No	Options Details	Select Option
1	Can be updated by end users	
2	Contains numerous naming conventions and formats	
3	Contains only current data	
4	Organized around important subject areas	

Q.36   The ………………….. is generally used by executives and other decision makers from the top-level management of an organisation to retrieve strategic information.

No	Options Details	Select Option
1	Decision Support System	
2	MIS

Q.40	Which of these is not a type of MSS?	Marks: 2

No	Options Details	Select Option
1	MIS	
2	EIS	
3	DSS	
4	TPS	

Q.41 The is a system which analyses, monitors and supports a computer network.

Marks: 2

Question ID: 6289119

No	Options Details	Select Option
1	DSS	
2	OSS	
3	MIS	
4	TPS	

Q.42 It deals with summarising or organising raw data from multiple data sources using analytical tools.

Marks: 2

Question ID: 6289120

No	Options Details	Select Option
1	Diagnostic analytics	
2	Descriptive analytics	
3	Predictive analytics	
4	Prescriptive analytics	

Q.43 ………………….. is a relatively new technology being adopted by more and more organisations to reap its benefits without having to spend huge amounts of money on hardware, software, network and IT professionals.

Marks: 2

Question ID:
6289121

No	Options Details	Select Option
1	Cloud computing	
2	Business Intelligence	
3	Data Mining	
4	Data Warehousing	

Q.44 ………………. refers to detecting of transactions which are most expected to be fraudulent.

Marks: 2

Question ID:
6289122

No	Options Details	Select Option
1	Customer churn	
2	Direct marketing	
3	Fraud detection	
4	Trend analysis	

Q.45 .... Is the primary memory of a computer system.

Marks: 2

Question ID: 6289123

No	Options Details	Select Option
1	PROM	
2	RAM	
3	EPROM	
4	ROM	

Q.46 It is low level language of a computer system

Marks: 2

Question ID: 6289124

No	Options Details	Select Option
1	HTML	
2	CPP	
3	C	
4	Machine language	

Q.47 Which of these software applications was not part of the first version of Microsoft Office?

Marks: 2

Question ID: 6289125

No	Options Details	Select Option
1	Paint	
2	MS-Excel	
3	Outlook	
4	MS-Word	

Q.48 Name the application under MS Office software bundle, that we use to create audio visual presentation.

Marks: 2

Question ID: 6289126

No	Options Details	Select Option
1	MS Word	
2	MS-Excel	
3	MS PowerPoint	
4	MS Access	

Q.49	Which one is the the spreadsheet application that comes with MS Office software group?	Marks: 2

Question ID: 6289127

No	Options Details	Select Option
1	MS Access	
2	MS Word	
3	MS-Excel	
4	MS Word	

Q.50	Which one of the most common forms of IT-enabled organisational change helps employees perform their activities effectively and efficiently?	Marks: 2

Question ID: 6377268

No	Options Details	Select Option
1	Rationalisation	
2	Re-engineering	
3	Automation	
4	Paradigm shifts
